16 months. 64.5cm. Large, strong dog of very good type, very good head and expression, desired dark eye, very good ear set, very good length of neck, high withers, firm back, slightly short, slightly steep croup. Very good fore and hindquarter angulations, stands correct in front, the upper arm is of good length but could be better angled, slightly short underchest. Steps slightly wide going with firm hocks, steps correct in front where the elbows should be firmer. During movement shows good ground covering gait, where the front reach should be slightly freer.

12 months. 65cm. Very large, strong dog of very good type, very strong head but still good expression, upper jaw is strong, ideally the lower jaw could be stronger, very good neck. High withers, firm back, slightly short, slightly steep croup, very good fore and hindquarter angulation. The hindquarter angulations should not become any deeper. Stands correct in front with slightly flat toes, the upper arm ideally could be longer and better angled, very good under chest development. Ideally the fore chest could be longer, moves close going, hocks could be firmer, close coming and elbows should be firmer. Shows free flowing movement, ideally both hindquarter drive and forequarter reach should be more effective.
