11 months Medium size, medium strong, very well pigmented and very well coloured dog. Dark eyes, dark mask. An expressive dog who should have a little more reach of neck. Flat wither, firm straight back, slightly short, slightly steep croup. The upper arm should be better laid but it is of a good length. Very good hind angulations. Very good length of fore leg. Yet to attain full development of under chest. Stands correct in front. Steps correct behind, steps correct in front, elbows are a little open. In movement would like to see a little more expanse and therefore better ground cover and this should improve as the wither ascends.

23 ½ months above medium size, medium strong, quite well proportioned dog. Black and brown in colour with a dark mask. Very good head and expression. Would like to see a better alignment of the skull and fore face. Good eye colour. Powerful neck, good wither, straight back, well laid but slightly short croup. Very good placement of the shoulder blade but the upper arm should be longer and better laid. Requires a little more fore chest and slightly short under chest. He should stand a little more correct in front. Steps correct behind, hocks should be a little firmer during movement. Steps correct in front but elbows a little open. In movement shows balanced movement through a firm topline but having said this I would like to see the movement a little more open and more expansive.
