1. 593 **REGALSHEP PETER PAN** 17/11/2003 D MAYNE
s. *LEBERHINE IJAZ A-Z d. *REGALSHEP KIND A SWEET
8 months old male of medium strength. Good type, strong muzzle good length of neck good development of pro sternum for his age, clean top line and underline, balanced angulation fore and hind. Good forequarter reach, the hindquarter drive is not as pronounced as I would like it for his age due to the hocks kicking high. Hopefully this will improve with time and in time will learn to accommodate his angulation and most importantly correctly open and close his hock joint.

Just 6 months of age medium strong dog with the ears yet to firm. Nice type, nice dark head however the under jaw should be more prominent. Correct proportions correct development of pro sternum for age. Very good forequarter angulation where hopefully the upper arm will lengthen. Very good top line spoilt somewhat by the steep croup, good hindquarter angulation. Loose hocks typical of his age elbows already firming, good forequarter reach for his age reasonable hindquarter drive but failed to transmit because of the angle of the croup.

10 months old medium strong male of good proportions. Good top line for his age underline yet to develop, pro sternum could be a little more pronounced improving his forequarter angulation very good hindquarter angulation for his age. Hocks still loose moving away, lovely playful nature for his age, nice ground covering gait. Efficient sequence of steps, some restrictions of the elbow reflects the comment of the elbow. Very good hindquarter drive.

s. *NILSON V WILDSTEIGER LAND IMP GMY A-Z H NEG d. GRUNDELHARDT WILD WITCH A-Z
11 months old. Medium strong male of very good proportions, good top and underline for his age but the croup tends to be slightly steep. Good temperament, nice type although the eye colour could be slightly darker. Hocks yet to firm for his age, but elbows are held in nicely. Very good ground covering gait, which will need to firm with work to be more competitive. Very good reach and the hindquarter drive could be a little more pronounced.

s. *LEBERHINE IJAZ A-Z d. *REGALSHEP KIND A SWEET
8 months old male of medium strength. Very good proportions, balanced fore and hindquarter angulation. Croup lying a little flat at the moment and yet to lengthen, hocks and elbows correct for his age. Very hurried sequence of steps to cover the distance and reach only being

demonstrated when the dog lowers himself causing him to dig in, in the front. The gaiting exercise is marred by a high rising tail.

JUNIOR DOG

Grading: VERY GOOD

1. 601 **TTINTAGEL CAMELOT** 18/07/2003 J SEIDL/M ROBINSON
s. UNO VON DER URBECKE d. PENDRAGAN HURLY BURLY
12 months old medium strong male, nice type, good pigment but the eye colour needs to be darker and is breaking in colour excessively along the top line. Good proportions, upper arm could be longer, good length of lower arm, correct top and underline for his age. Athletic hindquarter for his age, with good angulations. Correct coming and going. The forequarter reach shows restrictions because of the upper arm development but excellent hindquarter drive with excellent transmission through the back.
2. 599 **BRUANGIE BONZA** 05/06/2003 V CORLETT
s. *ADELORA WHISPERING JACK A-Z d. *BRUANGIE JEZZABELLE A-Z
13 months old strong male of very good type, strong pigment around the eyes and muzzle though I would like the colour to be stronger. Good length of neck very good top line although the croup is slightly flat at the moment. Very good pro sternum, very good fore and hindquarter angulation, correct development of underline. Correct coming and going. Very good forequarter reach and hindquarter drive however much vertical movement in the croup area. Fails to display sufficient transmission of the drive, hopefully this will improve if the croup settles
3. 600 **STUNADEL SLIM SHADY** 27/06/2003 A HUEPPAUFF & M LLOYD
s. *STUNADEL KINETIC A-Z H NEG d. * STUNADEL FIREWOMAN A-Z
12 1/2 months. Medium strong male, correct proportions in stance. Very good development of pro sternum, correct development on underline, nice top line. Very good balanced angulations front and rear. Nice dark pigment and colour although the eyes need to be darker. Hocks are yet to firm as are the elbows. Good forequarter reach has been marred by the restrictions caused by the use of the collar, which needs to be addressed by the owner and the handler. Reasonable hindquarter drive though the dog was allowed to amble much during the gaiting exercise.

1. 605 **VONRAUTEN DAX A-Z** 13/07/2002 VONRAUTEN KNLS
s. CH VONRAUTEN TANO A-Z H NEG d. REDHAUS CALLOUT A-Z
Just 2 yr old medium size strong dog with a masculine head. Very good pigment rich colour, though the black could be somewhat more

pronounced in places. Very good proportions, very good hind and forequarter angulation. According to the handler mum should call the dog more. Absolutely correct coming and going. The dog had a job to do and executed it in a relaxed far-reaching gait with excellent hindquarter drive transmitted through a firm back

&GRUNDELHARDT ORRINOCOCO A-Z

25 mths Just above medium size, medium strong dog of still good proportions. Good type, good pigment but would prefer more pronounced colouration in the black areas. Balanced hind and forequarter angulation good length of lower arm. Correct coming, hocks still tending to close a little. Very good forequarter reach and good hindquarter drive but I would prefer it to be more pronounced, transmission through a firmer back is required.

3. 604 **STERBACH HUGO BOSS A-Z** 20/04/2002 R & V ELLIOTT

s. *TROY VON DER NORISWAND IMP GMY d. * STERBACH HAVANA
2yr old. Strong masculine head, medium strong bone, above medium height of good proportions. Has reached maximum depth in chest for the length of forearm. Correct coming and going. Good forequarter reach and hindquarter drive but the two fail to totally connect today and detracted from the gaiting exercise

4. 602 **GILARISHA FAMOUS FONZIE** 30/10/2002 I & R ARCHBOLD

s. *ALIMANDA JAK O DIAMONS A-Z CL 1 d. *GILARISHA BLANCHE A-Z CL2

20mths Above medium size, strong dog of still good proportions. Strong masculine head, neckline slightly short good topline though has a slight peak in the back. Good underlines, good forequarter though the upper arm could be slightly longer and the shoulder blade placed back. Very good hindquarter angulation but the croup should be slightly longer. The tail carriage curls excessively at the bottom and the hocks slightly loose. Correct coming. Very good forequarter reach though tends to fall on the forehand at the fast gait, very good hindquarter drive, but the transmission is failed by the slight peak in the back which allows much vertical movement.

3.75 years medium size medium strong dog good pigment though the colour could be more pronounced. Correct proportions very good topline with good length and lay of croup very good fore and hindquarter angulations good development of the pro sternum lending itself to a pleasant underline and hence good length of forearm. Correct coming and going. Very good forequarter and hindquarter drive though the drive is lost a bit on a loose lead.

3 years strong male above medium size correct proportions good top line marred a little by a nick just behind the wither area, good underline, good length of forearm comparatively to depth of body. Very good forequarter angulations good hindquarter angulation though I would prefer just a slightly more width of thigh. Correct going slightly loose elbows. Takes a little time to stretch out through his gait eventually covering good ground covering at a reasonable pace, good hindquarter drive, good transmission through the back.

s. *LIBERHINE IJAZ A-Z d. *REGALSHEP KIND A SWEET
8 months old, medium strong bitch of excellent pigment and colour,
desired dark eye, feminine expression of still good proportions. Very good
forequarter angulation, good length of croup with a tendency to be slightly
steep but only reflecting her age. Very good hindquarter angulation, the
hocks are clean for her age, the elbows correct. Her robust temperament
allows her to have the time of her life out there however at times she does
demonstrate good reach and drive

2. 623 **VOM KOGELBERG BARONESS** 13/01/2004 J SEIDL/J DELUCIA
s. *LASSO VON DER WATERKANT d. BACCARA STERLING BIRD
6 months old, medium strong bitch of good type, good proportions, good topline where the croup will need to lengthen slightly. Very good fore and hindquarter angulation. Hocks are typical for her age, the elbows are correct coming. For her age has good forequarter
3. 621 **HILLTOP XANI** 17/01/2004 J HUXLEY/J & C TESTER
s. *NILSON VOM WILDSTEIGERLAND A-Z IMP GMY d. *HILLTOP XADA A-Z
6 mths of age medium strong bitch of good type, very good pigment and colour. Good top and underline, good length and lay of croup for her age. Typical close hocks reflecting her age. Elbows are already strengthening. Displays capability of good reach and drive, which will be demonstrated more as she matures in her training reach and hindquarter drive and with time and training should display good transmission through the back

- Nearly 12 months of age, of very good type, feminine head good pigment and colour, although the black area should be more defined, very good topline for her age, very good balanced fore and hindquarter angulation although the croup is just slightly flat. Hocks tend to be close, correct coming; I expect the hock to improve with age. Already developing an effortless far reaching gait with very good hindquarter drive.

10 months old, medium strong, nice feminine head, good pigment. Good colour although the black is breaking over the back. Very good length of forearm, very good balanced fore and hindquarter angulation. Still close coming and going. Maintains herself well during the gaiting exercise displaying good far reach and good hindquarter drive for her age.
 3. 632 **VONDOUSSA GEORGIE GIRL** 26/08/2003 A HUEPPAUFF & M LLOYD
s. *NILSON V WILDSTEIGER LAND A-Z H NEG d. GRUNDELHARDT WILD WITCH A-Z
11 months old, medium strong, bitch of feminine expression although I would prefer the muzzle to be strong and hopefully this may develop with an increase width of skull as she matures. Very good proportions, flowing topline, although the croup is tending to be slightly short and slightly steep. Balance fore and hindquarter angulations, Firm hocks for her age, elbows yet to tighten. Makes good use of a far reach in the forequarter good hindquarter drive, which hopefully will become more pronounced with training and maturity.
 4. 627 **RHOSYN CHOCOLATE SPLASH** 26/10/2003 RHOSYN KENNELS
s. *STOBAR PEETE A-Z d. * RHOSYN VITAL SPLASH
8 ¾ months. Medium strong bitch of absolutely correct proportions, feminine head and expression, with a lovely length of neck, which flows into the wither and goes onto a correct topline. The upper arm could be slightly longer, but for her age good length of forearm and very good hindquarter angulation. Correct coming and going. Good forequarter reach with some restriction with the area of the upper arm/elbow reach, very good hindquarter drive transmitted through a very good topline for her age.

16 months bitch of correct proportions feminine expression with a dark eye. Well developed in topline into a well-moulded croup in stance however as she steps forward it can be seen that the croup area is slightly steep. Very good fore and hindquarter angulation, hocks are still slightly close as are the elbows, which should both improve with maturity. Sequence of steps is extremely fast and her lack of training causes her to fall on the forehand both these should improve with maturity and training.

3 years bitch of ideal medium size slightly stretched proportions, medium strong bitch good neck good topline with a well moulded croup. Good angulations front and back although I would prefer a slightly wider and better-developed thigh. Hocks tend to be too close, elbows good coming. Good forequarter reach but would prefer more commitment from the hindquarter.

Well above medium size medium strong bitch, feminine expression however the overall skull and muzzle could be stronger. The neck flows into a high wither with a good topline with a slightly steep croup, good underline. Hocks tending close, elbows sufficiently firm. Good forequarter reach and hindquarter drive however the latter is not transmitted because of the angle of the croup.
