13 months. Double P1 upper left. 61cms. Very large, medium strong, black and tan bitch of very good proportions. Very good length of neck, high withers, firm back, slightly steep croup. The upper arm should be longer and better angled, very good hindquarter angulation. Stands correct in front with slightly upright pasterns. Good fore and very good lower chest development. Very good head with very good masking of both the skull and foreface, medium eye colour and very good ear carriage. Steps slightly narrow both front and rear, the elbows are slightly tucked in. During movement shows very good ground covering gait with strong hindquarter drive, the forehand reach however should be a little freer. There is a slightly tendency to high step in front. Slightly long tail which should be carried in a more natural manner.

13 months. 59cms. A black and tan, above medium size, medium strong, well proportioned bitch of very good type. Good length of neck, good withers, firm back, slightly steep croup. The upper arm while of good length should be slightly better angled, very good hindquarter angulation. Stands not quite correct in front with slightly open feet, ideally the pasterns should be a littler firmer. Very good fore and lower chest development. Very good head with very good masking of the skull and foreface, medium eye colour and very good ear carriage. Steps slightly narrow at rear, correct in front where the elbows should still be closer laid. During movement shows a very good ground covering gait with balanced hindquarter drive and forehand reach, the ligamentation over the back should remain a fraction firmer.

2 years 4 months. 61cms. A very large, strong, but still feminine bitch of very good colour, pigment and very good brood type. Slightly short neck, good withers, firm back, well moulded croup which could just be a fraction longer. The upper arm should be slightly longer and better angled; very good hindquarter angulation with strong very well developed thighs. Stands correct in front with good fore and very good lowerchest development. Ideally the lower chest could still be a fraction longer. Strong and still just feminine head with very good strength of the skull and foreface, very good masking, very good eye colour, very good ear carriage. Steps slightly narrow at rear slightly wide at front where both the elbows and hock joints should be a little firmer. During movement shows very good ground covering gait with balanced hindquarter drive and forehand reach. The impediment of the length of the lower chest becomes more apparent during movement.
