Judge - Mr Mike Bradley (NZ)

Firstly, many thanks for the invitation to Judge in Adelaide. It is always a privilege to do so, and enjoyable. Big thanks to my stenographer, Brigetta who was outstanding in her work and delivery, despite me talking too fast at times, and she clearly understands process. To Mike, my ring steward who is well versed in running a ring, many thanks for the banter and expertise offered.

Secondly to the Club, the President, John and Secretary, Steve and especially to the hard working committee and the unbelievable kitchen staff/cooks/food preparers, which I must say, around the world where I have been fortunate to Judge, they are the best. The trophy table was outstanding in trophy numbers and quality and coming from a small club, well envied.

I was very pleased with the entry in both numbers and quality. It is more difficult to come from NZ to Judge in Australia than the other way round. Simply, there are more dogs and most importantly greater depth and quality. Yes, we have some very good dogs but not the overall numbers or quality, nor depth.

On the positive side, temperaments were very sound; colour and pigmentation was strong and well spread throughout. Expressions and heads were of a very good quality; eyes a little mixed, but improved from when I last judged. Bone strength and bone length was good to very good; withers ranged mainly from normal to high, which is very pleasing; backs generally very good, but an area we have to watch in judging but more importantly in our breed programs.

Croups have improved from my last visit especially in their lay but many are still slightly short. Heights ranged from well above medium to large with a few very large but overall the indications were sound. Forequarter restrictions are as we know a global issue and once again the length was very good overall. The main areas of concern is the angle and the lay back of the shoulder blade itself.

The over angulation of the hindquarter was not as common as has been reported in other areas from my perspective. Yes, the length of second thigh is an issue we must be vigilant in and subsequent soundness, but may I sound a caution here. No matter whether in sports or business we have to be very careful that we do not concentrate to such an extent we lose the value of the overall issue or in this case the overall dog in question.

Long coats were first shown in NZ in 2013, and the interbreeding was fought for and won from day one. We simply do not have the strength and depth of a gene pool to do otherwise. So far it has been very good for the breed in NZ and the quality of long coats is thus reflected. I have little doubt the same will happen in your country. But, and there is always a but, I guess, is that the fronts viewed while standing, really have to be addressed early. Also the overall proportions from wither to brisket and brisket to ground are clearly an area of concern.

Sadly, there were many that I critiqued that they should stand more correct especially in their lines of support viewed from the front.

So, once again many thanks to all those exhibitors who made it a real success, and from the catalogue to those who travelled, a huge thank you.

Mike Bradley.

Former SV Judge, Head Breed Surveyor, Club President.
