

SHOW MANAGER SYSTEM CHANGES – FOR GSD OWNERS

BACKGROUND

The showmanager.com.au system now has a direct link to the Dogs Australia database which verifies the details of the dog. ShowManager refer to them as “Registry Dogs”. When you enter a new dog by entering the registration number the details from your pedigree will be automatically uploaded.

To accommodate Breed Survey & Hip/Elbow Status the system has been updated to include some extra fields for information not captured in the Dogs Australia database:

- DNA Number
- Public Profile
- Breed Survey Status
- Hip/Elbow Status

Each existing dog in the system will need to be converted to a “Registry Dog” to enable these fields.

WHAT TO ENTER

For German Shepherds, the Breed Survey Status and Hip/Elbow status are the fields that owners need to include when entering shows and trials.

Both these fields will take multiple characters as they are used by other breeds **not just the GSD** therefore, they are unrestricted in length.

When entering the Breed Survey Status **PLEASE** only use an * only. Do not use CL.I or BSC or BS or Breed Survey Classified or BS Pass and do not include any other detail in this field as when printed in a catalogue it will look untidy.

For Hip/Elbow Status **PLEASE** only use AZ or A Z or a ED. Do not include scores or any other data e.g. DM Clear or ZAP Pass are not required. If this information is entered it will not be included in the final catalogue for the National and other shows held in SA. These requirements are as per the National Show Manual.

For example, when the information flows through it is requested that the information is presented as per COLUMN A not B:

| ✓ COLUMN A – CORRECT ✓ | | | ✗ COLUMN B – INCORRECT ✗ | | |
|------------------------|-------------------------------|------------|--------------------------|--------------------------------|---|
| User added | From Dogs Australia Database | User added | User added | From Dogs Australia Database | User added |
| * | CH. HEDGEWOOD UNBELIEVABLE | A Z | BSC | Ch. Hedgewood Unbelievable | A 4:3 Z 0:0 |
| | | | Breed Survey Pass | Ch. Hedgewood Unbelievable | A 4:3 Z 0:0 Zap Pass Tooth Certificate 1390 |
| | | | | Ch. Hedgewood Unbelievable | AZ DM Clear |
| | | | * | Ch. Hedgewood Unbelievable | AZ BIS BISS Mult Exc |
| * | FREDDO VOM ZEPPHAUS (IMP DEU) | a ED | BSC | Freddo vom Zeppohaus (Imp Deu) | A (normal) ED (normal Gmy) |

WHAT TO DO

It would be appreciated if your animal could be transferred to a “Registry Dog” prior to entering the 2024 National by selecting “CHECK FOR DOG UPDATES” and then use the EDIT feature to include the Survey and Hip/Elbow status.

For existing animals in the database, you need to update each animal.
