Under 12 months of age. A medium strong, just above medium size, well coloured and pigmented female. Feminine head where the eye could be a little darker. The ears are set a little wide. Very good, dark masking. Just slightly erect neck. Good wither with just a slight peak behind. Firm back. Just slightly short, slightly steep croup. The upper arm could be a little better angled. Good hind quarter angulation. Steps close both front and rear where the hocks and elbows are yet to firm. During movement shows a good ground covering gait where the slight peak detracts from the overall impression. **Graded Very Promising**

A large, strong, masculine male. Masculine head where the planes of the skull and foreface are not quite correct. Good breadth of skull with good dark masking. The neck could be a tick longer. High wither, clean topline. Slightly steep croup of good length. Good length of upper arm but could still be a little better angled. The hind quarter angulation should not become any deeper. Good breadth of thigh. Very good fore and under chest development. Steps close behind, a little wide in front. Both hocks and elbows are yet to fully firm. During movement he covers the ground very well but there are times when he should maintain a better wither. Inclined to pull too hard which detracts from the overall picture. **Graded Very Good**
